PORTFOLIO

[Portfolio link ↗](#)

PROJECTS

[Register Karo ↗](#)

Jan 2025 - Feb 2025

A React-based front-end that simplifies managing business registrations, tax filings, and legal tasks, offering an intuitive and user-friendly interface.

[Flipkart](#) [Clone](#) [↗](#)

Nov 2024

Created a Flipkart Clone to replicate the layout and interactive features of Flipkart's homepage using HTML, CSS, and Bootstrap. The project includes a dynamic carousel and an other section with smooth animations

[Password Strength Checker ↗](#)

Jan 2024 - Jan 2025

This project is make with technologies like html css and js . in this you can check the strenght of your password

[Perosnal Portfolio ↗](#)

Nov 2024

Developed a Personal Portfolio website to showcase my projects, skills, and achievements. The site features a clean design, project highlights, technical skills, and links to connect with me on various platforms.

[Maker stage ↗](#)

Feb 2024 - May 2024 During my Maker Stage project, I worked as a frontend developer. Initially, it was challenging because I didn't know much about React, but I worked hard and successfully completed my part of the project. I contributed to creating several pages, some of which are not yet deployed officially, such as the login page, signup page, dashboard, and a step form for the "Get a Quote" section. I also created key components like the resources section, hero section, and navbar for the home page, among others.

[Pustak Ghar ↗](#)

Jan 2025 - Present Developed a website allowing students to access syllabus and notes based on their branch and year. Currently enhancing its functionality for better user engagement.
